A New Industry.

A sign on King street reads "New York Cash Bakery" and is evidently doing a thriving business.

A few days ago a gentleman in our town called at the bakery and the proprietor was ready for business. The visitor handed him out three dollars in silver with the remark: "I see you advertise this as a cash bakery, please bake these 3 dollars."

We don't bake money, was the reply, we bake dough. "Well," the visitor answered, "this is all the dough I've got."

A Reduction Sale.

Mr. Belove, the jeweler, has decided to clear out all his silverware and novelties at a big reduction and the sale is now on. Take a look at some of the bargains he is now offering. He needs money for the staple articles he will carry during the summer, so they go cheap.

The night has a thousand eyes,
The day but one,
Yet the light of the whole world dies,
With the setting sun.

Just take a couple of thousand eyes to Chas. W. Friend, with his new and improved instruments, for testing the eyes he will fit them so well the sun will not be missed.

Have you noticed those beautiful under-skirts in Miss Taylor's window only \$2.50 each.

If you want to see what kind of values S. B. Cohen's are offering just take a look in his show window.

There'll be a popular musical service at the Presbyterian church this evening, to which the public are cordially invited. Antiphonal selections will be rendered by two responsive choirs.

Senate Bill 51.

The substitute for Senate Bill 51 adding the Governor and Secretary of State to the Board of Capitol Commissioners introduced by Comins was again before the Senate yesterday.

Mr. Comins was called upon by Senator Wasson to explain what good accrued to the State by adding to a Board already provided for by law.

The explanation was that the Deputy State Treasurer, as Secretary of the Board had all he could attend to and felt that the duties were an additional burden to his office.

Senator Ernst called attention to the fact that the Deputy State Treasurer was not the Secretary of the Board and consequently was not burdened with extra duties.

Senator Comins then stated that one of the reasons for passing the bill was that it compelled the Board to keep books whereas none had been kept.

If the members of the Senate will call at the Controllers office they will find that the Deputy State Controller has been keeping a complete set of books for the Board of Capitol Commissioners since Jan 1st, and they are open to the public.

After some discussion the bill went to the bottom of the file.

Different With the Governor.

At the meeting Saturday night, Senator Flanigan of Washoe said in a speech that he "didn't give a dam for the votes of tramps and hobos."

The Governor at once got the floor and turned loose:

"Poor people can always vote for me and so can unfortunate people. When I run for office I am glad of all the votes I can get, tramps, hobos, hoodlums and Homoculders."

This rally brought down the house and the audience cheered the sentiment.

Yesterday Judge's salary bill passed the House and he gets \$1800 a year as Adjutant-General.

It was a just measure and his friends flocked to his room to congratulate him on the result.
